TEAM VISION:

From the get-go, our mission was crystal clear: forge a recommendation model that doesn't just hand you game suggestions but propels you toward gaming greatness. Yet, this mission sparked a crucial query:

WHAT EXACTLY DEFINES "GREATNESS" IN THE REALM OF GAMING?

DEFINING "GREATNESS"

○ BECAUSE BEING A BETTER PLAYER ISN'T JUST ABOUT WINNING—IT'S ABOUT EMBRACING THE JOURNEY, HONING YOUR SKILLS, AND FINDING THE GAMES THAT SPEAK TO YOUR SOUL.

◆ GAME TYPE FOCUS

Welcome to the adrenaline-fueled world of first-person shooter (FPS) games—the cornerstone of our analysis. Why FPS? Because these games are all about the thrill of competition and the relentless drive to surpass your own limits.

◆ PLAYER STATS

It's not just about outgunning your opponents—it's about outsmarting them, outmaneuvering them, and constantly pushing yourself to be better. Whether you're climbing the ranks in competitive mode or teaming up with friends for some intense action, FPS games are the ultimate test of skill and strategy.

PLAYER 2 ❤️❤️❤️❤️❤️

OUR PROCESS

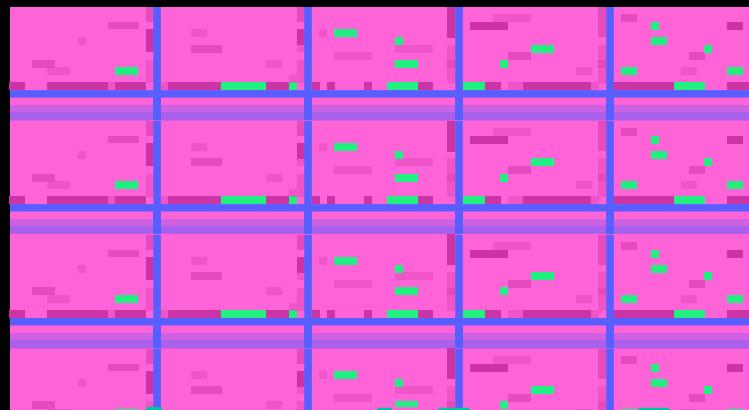

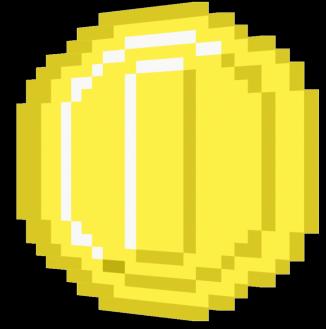

We wanted to analyze competitive gaming that wasn't limited to the usual e-sports FPS titles or Multiplayer Online Battle Arena's (MOBA)

The motivation behind gameplay is an inversion of how motivation for most other things operate. Generally, when we're motivated to work toward a desired goal, the means are incidental and sometimes a nuisance. In contrast, in-game, the means – gameplay – is the whole point and the in-game goals are incidental. A completed play of a game doesn't improve your life. It's the journey – the gameplay itself, which makes the game worthwhile.

-- C.Thi Nguyen
